

Spring 2024

CATALOG SUPPLEMENT YOUNG PLANT

ex·pan·sion *noun*

• *the action of becoming larger or more extensive*

We are expanding the offering for our 2023/2024 young plant list. We are excited to now include select Syngenta genetics in our lineup. You can now order some of our favorite petunias (Sanguna) and well-loved lantana (Hot Blooded Red and the Bandana series) and the ever-popular Calliope geraniums, pollinator-friendly Pentas Starcluster and other select Syngenta items to your Galema orders.

What is with the colored lights?

Purple light is beneficial for plants in the vegetative growth cycle. Energy efficient LED grow lights extend the day length and increase the intensity and quality of light in the winter months to produce a stronger young plant.

We bring you these genetics in our signature 25-count strips so you can order as few or as many as your production requires.

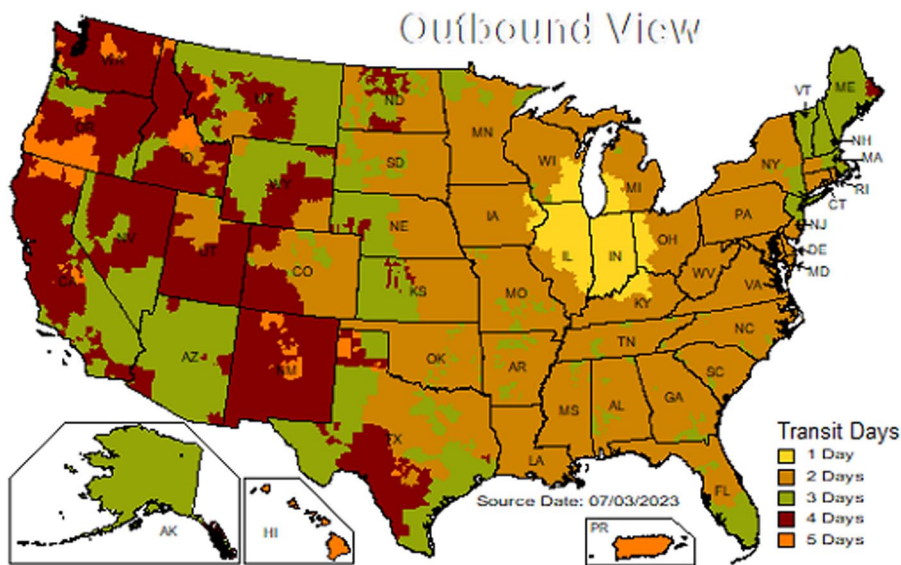

Another expansion is in the New Guinea Impatiens – Now available are the Sunstanding Jazzy series – their bright colors and vivid variegated foliage are sure to grab the attention of today's gardeners.

A third expansion is in the form a brand new series of fuchsia from DummenOrange – the Ballerina series is perfect for pot production that bloom reliably and persistently from early April to August. Their medium sized flowers attract bees and other pollinators throughout the summer season.

The final expansion is our stock geranium production – the popularity of our heirloom varieties has been growing and so we have increased our stock to provide improved order fulfillment.

With low order minimums and no full-boxing requirements, we are prepared to be your go-to source for your young plant needs. By partnering with UPS, we can provide economical 1-day and 2-day ground service to much of the country.

*Thank you,
Tim & Bev Galema*

"I grow plants for many reasons: to please my eye or to please my soul, to challenge the elements or to challenge my patience, for novelty or for nostalgia, but mostly for the joy in seeing them grow."

— David Hobson

Spring 2024

CATALOG SUPPLEMENT

PREFINISHED

PREFINISHED program

**Not sure what to do about crops
 that take a long time to grow?**

Try our PREFINISHED PROGRAM!

We begin the process with fern liners
 in June and grow them all summer to become
 our prefinished ferns!

You can pot them up in the fall or we'll
 pot them for you and you can purchase a
 prefinished basket in March for May sales.

**A smart idea for a crop that takes
 a long time to grow!**

The pages of this catalog list the products and
 sizes for our Prefinished Program.

*Call your broker to place
 an order today!*
